

CLAIMS AS AMENDED DECEMBER, 2004, EDITED MARCH 2005

1. (Previously ~~with~~drawn) A bicycle repair station comprising:
a bicycle support dimensioned and configured to support a standard bicycle;
a vending device, the bicycle support and vending device being attached to one another;
at least one bicycle repair tool,
a tether, the bicycle repair being attached to the tether, the tether being attached to one member selected from the group consisting of: the vending device, the bicycle support, and combinations thereof.
2. (Previously withdrawn) The bicycle repair station of claim 1, further comprising:
an air compressor attached to one member selected from the group consisting of: the vending machine, the bicycle support.
3. (Previously withdrawn) The bicycle repair station of claim 1, wherein the bicycle repair tool is one member selected from the group consisting of: tools optimized for bicycle usage, tire irons, spoke butterflies, wrenches, screw drivers, and combinations thereof.
4. (Previously withdrawn) The bicycle repair station of claim 1, wherein the vending device dispenses at least one item selected from the group consisting of: bicycle tires, bicycle inner tubes, bicycle repair tools, bicycle lights, bicycle brake pads, bicycle components and combinations thereof.

5. (Previously withdrawn) The bicycle repair station of claim 1, wherein the bicycle repair station has a weight sufficient to deter easy removal.
6. (Previously withdrawn) The bicycle repair station of claim 1, further comprising: a concrete apron, the bicycle repair station secured thereto.
7. (Currently amended) A bicycle repair station comprising:
a bicycle support dimensioned and configured to support a standard bicycle suspended;
a vending machine, the bicycle support and vending device being attached to one another;
an air compressor attached to one member selected from the group consisting of: the vending machine, the bicycle support and combinations thereof.
8. (Withdrawn) The bicycle repair station of claim 7, wherein the bicycle repair tool is one member selected from the group consisting of: tools optimized for bicycle usage, tire irons, spoke butterflies, wrenches, screw drivers, and combinations thereof.
9. (Withdrawn) The bicycle repair station of claim 7, wherein the vending device dispenses at least one item selected from the group consisting of: bicycle tires, bicycle inner tubes, bicycle repair tools, bicycle lights, bicycle brake pads, bicycle components and combinations thereof.
10. (Original) The bicycle repair station of claim 7, wherein the bicycle repair station has a weight sufficient to deter easy removal.

11. (Currently Amended) The bicycle repair station of claim 7, further comprising:
a concrete ~~base apron~~, the bicycle repair station secured thereto.
12. (Original) A method of selling bicycle equipment products, comprising:
providing a machine vending such bicycle equipment products;
selling such bicycle equipment products by means of the vending machine;
and providing at least one member selected from the group of devices consisting of: a
bicycle support dimensioned and configured to support a standard bicycle suspended, an
air compressor, bicycle repair tools, and combinations thereof; and
securing the provided devices in a manner sufficient to deter removal. ~~and~~
~~selling such bicycle equipment by means of the vending machine.~~
13. (Withdrawn) The method of claim 12, further comprising a first step of:
locating a first place having a relatively high volume of bicycle use; wherein
the steps of providing devices further comprise providing such devices at the first place.
14. (Original) The method of claim 12, wherein the step of selling such bicycle equipment by
means of the vending machine further comprises:
selling such bicycle equipment 24 hours a day.
15. (Original) The method of claim 12, further comprising the step of:
servicing the vending machine at regular intervals and leaving the vending machine
otherwise unmanned.
